WHAT IS DASHBOARD
IN A DAY?

Sontai have partnered with Microsoft to bring you an interactive, hands on workshop that covers the full capabilities of Power BI.

With Dashboard in a Day you will learn learn Power BI and start discovering the data you have in just one day.

LEARNING OUTCOMES

During the interactive session there will be plenty of practical, hands-on training that will guide you through a real world scenario of connecting to data, modelling and visualising the data, followed by sharing a report using the Power BI Service.

Accessing & Preparing the Data

Connect and import your data into Power BI and manipulate the data ready for reporting

Data Modelling and Exploration

Learn how to create a range of different charts, how to highlight and cross filter the data, as well as create measures.

Visualising your Data

Apply conditional formatting, add logo's to filters, imported custom visuals and applied custom report themes.

Publishing & Accessing your Reports

Create a mobile view of your report, create a workspace in the Power BI service and publish your reports to the workspace.
